

Preferred Drug Benefit Guide

(Prepared by CVS Caremark for AT&T Prescription Drug Program Participants)

How to Use this Guide

Share this guide with your doctor. Ask your doctor to consider prescribing generic medicines whenever possible. You will pay the lowest copayment¹ when using generics. Preferred brand drug copayments apply to the medications in this alphabetical listing and may provide cost-savings to you and your plan. Choosing a brand-name medicine not on this guide may result in a higher copayment.
